

144,000: 59 – Christ Power Regenerates

Of ourselves, we have little or no power to birth our light body. As a co-creator with God, however, we can regenerate all things by having the One Power create through us. Rightly used, **power is a handmaiden or midwife** that serves, heals, regenerates and births a new heaven on a new Earth.

Empower 1,000 Elect in Iran. This Middle Eastern country originally was known as Persia. One of the meanings of its name is “horse,” which represents power. At one time, Persia was the pre-eminent power throughout the Middle East. In its heyday, Persia practiced the teachings of Zarathustra (Zoroaster), who was an incarnation of Sananda, in rightly using power. (Sananda later incarnated as Jesus.)

Therefore, we see ourselves as an earthly handmaiden for Sananda-Zarathustra-Jesus. He, other ascended masters and guardian angels pour deep aqua liquid-light into our cerebral power throne, which flows down our spine, and out through our hands and feet. With hands held up, we radiate this healing, uplifting, regenerative power to the 1,000 elect in Iran, who are of every religion (although predominately Muslim), tribe, ethnic group, age, race and profession. These 1,000 elect have the spiritual power to regenerate every aspect of life in Iran.

Iran’s leaders currently seek to develop nuclear power. While they claim they will use this only for peaceful means, many observers suspect that they are seeking a nuclear bomb. This would make them the most powerful nation in the Middle East, capable of blowing their perceived enemy Israel off the face of the Earth, as they have threatened in the past to do. Here is the Iscariot temptation to force things from a mortal, physical, intellectual level and to use power to control and destroy others. Karmically, Iran is revisiting its past uses and abuses of power in its history as Persia.

Our light-body power projections are that Iran now rightly uses power in peaceful, loving, cooperative, coordinated and regenerative ways to uplift their people and all peoples of the Middle East. **We see them realizing that power is a handmaiden, not a weapon.** Our greatest power is to serve others as we birth the light on Earth. As we use power, so is it used on us. So said Zarathustra. So said Jesus. So said Mohammed. So shall it be in Iran.
