

InVest: 34 – Prepare for Pentecost

Easter was April 4th this year. After Jesus resurrected his light body, he remained on Earth and demonstrated in his Christ body for 40 days. That took us to May 14th, a few days ago. Before Jesus ascended, he told his disciples to wait until the Holy Spirit poured out upon them, which occurred on Pentecost. We now are waiting on the will of Spirit for this to happen to us.

Pentecost is this Sunday, May 23rd, at least going by our current calendar. What will happen then? How will we, like the original disciples, experience an individual flame of light around, within and through us? No one but Spirit knows. All we can do now is to turn our will over to Spirit's will, to wait upon our Father-Mother Creator, and to breathe in the sky-blue light of will.

Each of us, however, has been prepared inwardly for this upcoming Pentecostal pouring out of Spirit. Since Easter, we were given hints, clues, dreams and visions. When we had these, we didn't really understand what they entailed or portended. Typically, it is not until after we experience the pouring out of our light body that we can see how Spirit prepared us for this. Time and again, therefore, we are wise to affirm: Not my will, oh Lord, but Thy will be done!

As part of my soul preparation, in a dream of April 11, 2010, my guardian angel, whom I believe was Lord Gabriel, took me to the foot of a hill, atop which was a magnificent, radiant city of light composed of about 12 governmental buildings. These buildings were arranged more or less in a square or cube. So intense and bright were the emanations of these white marble-like structures – reminiscent of the United States Capitol Building, Supreme Court and White House -- that my eyes instinctively shut and I fell to my knees, overwhelmed with the higher energies.

Upon awakening, the realization immediately came that this was the I Am Nation manifesting on Earth, representing my own light body as well as the thought forms and structures of the I Am Nation to come. It was like what John the Beloved had viewed when he had been taken up in the spirit and had perceived the New JerUSAlem descending from the heavens to earth. In his vision, this transcendent holy city was in the form of a cube, 12,000 furlongs wide, deep and high. My dream also represented the upcoming pouring out of the Holy Spirit over Washington, DC, as well as capital cities in nations around the world.

Visualization: Picture yourself within a cube of Christ light, each of whose 6 sides are 12 by 12 feet square. The base of the cube is a foot or two below the ground, such that you are well-grounded and well-connected with the devic elemental kingdoms. Via the top face of the cube, feel the overshadowing presence of your guardian angel. Through the 4 faces that face north, east, south and west, peer out upon all the nations of the world. What you see, will be. Inside your cube of light, wait upon the will of God. Think of the cube as being like a spaceship sitting atop a huge rocket, which when fired will propel you up and into I Am or cosmic consciousness. Starting today, Monday, for the next 7 days, wait, watch, listen, learn, see, transmute, and on Pentecost be aflame with the Holy Spirit. In your light body, connect with the 144,000 elect around the world in radiating cosmic light to every capital and all governmental leaders in the world. See the I Am Nation birthed everywhere on Earth. So be it.
