

## ***InVest: 65 – Be Centered in Sun Cross***

In Costa Rica, in several meditations and visions, I was shown and told to focus on an universal symbol that I later learned is called the **sun cross**. This is a circle with an equal, four-sided cross in it, which is found in one form or another around the world. In Native American cultures, it is called the medicine wheel. Spirit directed me was to come back time and again to the center point of the cross, in the center of the circle or sun or Son that I Am.

The circle represents the wholeness, holiness and completeness on all levels of our indwelling I Am Self. It also portrays the sun, which is a symbol of our I Am or Son/Daughter consciousness. The sun is the center of life and light through the solar system, just as our I Am Self is the center of our beingness and of our four lower bodies: mental, emotional, soul-astral and physical. The sun was worshipped as a symbol of God by the Incas (precursors of the Costa Ricans), Egyptians and numerous other cultures throughout history

The cross represents crossing out or crucifixion, prior to resurrection of our I Am Self and light body. Being equal sided, it also represents complete clarity and balance. The four cardinal points portray the four directions: north, east, south and west. The four segments represent the four lower bodies and the four-step matrix of peace, love, cooperation and coordination.

The symbol also portrayed that MariLyn and I were at the epicenter of the entire Western Hemisphere, located at the midpoint and crossroads of North and South America by way of Central America. In all of our meditations and projections, we were to radiate peace and love, cooperation and coordination to the north and the south, as well as to the east to Europe and Africa and to the west to the Eastern Hemisphere.

The key was always to be centered, always to come back to our center, to time and time again be the Christ we are. This, of course, is true of all light workers. Wherever they live, they are at the center of the world. They are a center of light linked with all other centers of light worldwide.

About a week into our Costa Rica Mission, at a hot springs near Arenal Volcano, I was astounded to find in a gift shop a wallet/purse that had a sun cross as its major design. Moreover, it was mostly in shades of green for healing under Hilarion (who was Plato, Paul and Charles Fillmore). Here was Spirit's confirmation and verification! Needless to say, I was deeply humbled and thankful for this.

Friends and fellow light workers/healers, as we move into the Christmas cycle, **be centered in the sun cross**. Repeatedly use this image in your meditations. Come back time and again to I Am peace, love, cooperation and coordination. Cross out the mortal and resurrect your immortal I Am or Sun Self. Be the centered and holy Christ you are. See the rebirth of Christ awareness in each and every other child of God, all around the Earth. Happy Christ Mass!
