

ONENESS 102: 16 - 7 Trees of Peace & Love

Having planted 2 trees of life, 1 each in the West and the East, expand your visualization, implantation and realization. Plant 5 more trees, so that 1 tree grows in each of the 7 continents.

Wrap a strand of etheric light from below your feet, spiraling upward in a counterclockwise direction, enclosing your legs, and all of your 7 major chakras: sacral, regenerative, solar plexus, heart, throat, third eye and crown. From the top of your head, continue to spiral upward, forming a tube of light, via which you ascend about 5-6 feet into the head of your light body that is about 12 feet tall. Your four lower bodies are encased in light. Via faith, you are reborn and resurrected in your light body. This seemingly giant-sized body strengthens you.

Commune in I Am Christ consciousness with Kut Humi, his twin soul counterpart, and Lord Jophiel. Link also with Sananda and Sol-O-Man. If you do not see them, other masters or guardian angels, sit in the stillness until you realize your oneness with them. You and they are one in the One. This is the truth; however it is that you experience it in visions, dreams, inner knowing and/or direct perception. Have faith that this is so. Be stabilized in this cosmic reality.

Your tree of life is one with the trees of the ascended masters, such that all of you comprise one brilliant yellow tree of strength, stability and steadfastness. Faithfully bonded with your etheric and celestial mentors, and strengthened exponentially by them, look down upon the earth and begin your mission to implant 5 more cosmic trees there.

Picture yourself hovering once again in your light body over Brainerd and Lake Itasca in North Central Minnesota in the USA that symbolically portrays the first founding of the New JerUSAlem on Earth. Note that Brainerd is the geographic center of North America that extends northwest to Alaska, northeast to Newfoundland and Greenland, and south to the southern section of Mexico and into the northern part of Central America, about to Costa Rica.

Previously, you already planted a tree of life in Brainerd/Lake Itasca, whose trunk flowed horizontally along the Mississippi. This time, see the tree's roots growing straight down, its trunk and branches rising vertically, and its green canopy spreading in a circle until it covers all of North America. It begins to produce 12 fruits, which represent the I Am birth of the 12 powers in all light workers throughout North America. It may take 10 years or more for this tree to mature enough for the 12 powers to be resurrected fully on and about the earth.

Travel now to South America and look down on Manaus, Brazil in the middle of the Amazon Rainforest. Spiral down in a clockwise direction and be like a huge auger, a tool used to dig holes. Make a hole deep and wide enough in which to place the root ball of a 12-foot tall tree of life. The roots of this 2nd tree penetrate deeply into the rich, fertile soil. Its trunk grows upward and its limbs spread outward. Its green canopy expands so much that it covers all of South America, up to Central America. North and South America is one tree of faith and strength, ready to give forth the fruit of love.

Teleport now to Europe and hover over Poland. This area is more or less the center of Western and Eastern Europe. Symbolically, Poland serves as a “pole” of light, a spinal column of strength and stability for the whole continent. Descend via your column of Christ spinal strength and plant the 3rd tree in Poland’s receptive soil that has been prepared by Sol-O-Man/Mary, whom Poles love and adore. See the tree steadily growing until its canopy circumscribes all of Europe. Have faith and strongly believe that this is so. Realize it in your mind and heart.

Travel next in your light body to the central portion of Africa and hover above the Congo Rainforest that is another green, edenic garden. Descend in a clockwise-spiraling, auger-like way and bore a hole in the ground, wherein you implant the root ball of the 4th 12-foot tree of lemon-yellow light. Strengthen and stabilize this tree with your cosmic knowledge, such that it grows steadily into a miles-high tree of knowledge that enlightens all of Africa. So be it.

Move next to Asia and look down once again on the Himalayas. Already, you have planted the 5th tree in these highest mountains on Earth. Nourish this tree with the healing waters of the etheric realms, which pour as the Holy Spirit down through your spine to the ground. The tree’s canopy grows and covers India, Eastern Russia, China, Japan, Southeast Asia, the Philippines, northern Indonesia and the Middle East. Fortify the tree with your faith. Strengthen it with your light-body stability. In a decade, its 12 fruits will feed the billions of souls in this region.

Via a light beam, as guided by the ascended masters and angelic guardians, augmented also by the space brothers and sisters, reposition yourself over Australia. Plant the 6th tree in its center, near Ayer’s Rock, in and through the aborigines there and their guides in the higher astral realms; as well as via other receptive light workers. See the tree growing until its canopy covers Australia, New Zealand, the sections of Indonesia below the equator, and New Guinea.

Plant the 7th and final tree throughout the earth. The young tree is introduced and implanted in the very center of the globe. Its roots grow all the way down to the 7th continent of Antarctica, and infiltrate the entire Southern Hemisphere. Its trunk grows along the whole axis of the earth. Its canopy reaches up to the Arctic icecap and spreads out over the entire Northern Hemisphere. This global 7th tree encompasses and nourishes each of the other 6 trees with Seventh Ray peace and love, cooperation and coordination. Affirm this. Decree this. Visualize this. Realize this. It is!
