

144,000: 50 – Link with 12,000 Elect in Southeast Asia

The power of zeal & enthusiasm expresses primarily via the hypothalamus and medulla oblongata at the base of the brain. The hypothalamus has 12 or more individual centers or nuclei (see the shaded grey area in the schematic drawing to right), each of which govern a particular function such as water level, temperature, wake-sleep cycle, libido, hormonal secretion, appetite and energy balance. Hypothalamic centers also release endorphins and enkephalins to regulate pain, mood and one's sense of well-being. The medulla (located at the lower right-hand corner of drawing) contains other centers that control respiratory and heart rates, and nausea and vomiting. All of these hypothalamic and medullar centers work together in a coordinated and cooperative way to produce harmony and homeostasis throughout the body; which expresses balanced zeal and enthusiasm.

Like all of our other God-given powers, zeal has a throne in our cerebrum, which oversees, directs and governs the hypothalamus and medulla. According to current research, the most likely position for this zeal throne is in Brodmann's areas 20 & 21, and/or area 38, in the temporal lobes. This region has extensive neuronal pathways that interconnect it to the hypothalamus and medulla. This zeal throne contains about 12 billion cells or neurons, of which only

12 thousand have to be so infused with Christ zeal that they fire up and transmute all of the billions of other cells in the cerebral zeal center -- I, when I am lifted up, lift all others unto me.

On a planetary level, since zeal functions on the passive, feminine or receptive polarity in partnership with the positive power of order, we can think of zeal as being located in the Eastern Hemisphere in Southeast Asia and in part of the Far East. Nine major countries are located in Southeast Asia, which is the region that is east of India, South of China and north of Australia. These nine are: **Vietnam, Laos, Cambodia, Thailand, Burma (Myanmar), Malaysia, Singapore, Indonesia and the Philippines.** These nations are located at the base of, or below, continental Asia, just as the hypothalamus and medulla are located at the base of the brain, below the cerebrum. Zeal also expresses via **Japan and Taiwan**, which are island nations off the coast of China; and in and through **North and South Korea** that are located on a peninsula that extends from China. Together, these 12 nations have approximately 850 million citizens. Note that all of these 12 countries are either island nations or positioned on a peninsula that juts out from the Asian mainland. Only Laos is landlocked.

On October 16, 2009, I **dreamt** that I was taken up in my light body to high above the Eastern Hemisphere. I seemed to be aboard an etheric spacecraft, where extraterrestrials guided me to peer down upon the entire Southeast Asian and Far East regions. Superimposed over the entire area was a 12-sectioned screen, like those used to separate one space or room from an adjoining one. Each of the 12 sections or panels represented the thought forms of one of the 12 nations, where 1,000 light workers or elect were doing their best to uplift and awaken the rest of their countrymen and the whole region.

On each panel were unique symbols, images and calligraphy mostly from one country, plus drawings of religious and cultural themes that existed also in adjoining panels and nations -- the elect in each country perceive, develop and express their 12 powers according to the religion, culture, education, ethnic groups and philosophies of their nations, yet there is overlap with other countries. Thus, Thailand is predominantly Buddhist, Indonesia is the world's most populous Muslim nation, and the Philippines are the largest Catholic country in Southeast Asia; yet all three have Buddhist, Islamic, Christian and other religious populations. Each country maintains their individuality, yet also is integrated into one functioning whole with other nations.

On the first panel were mostly Japanese symbols and calligraphy. Since its defeat in WWII Japan has led the way in transiting from a feudal, imperialistic, competitive, dominating and separatist nation to a modern, democratic, economic powerhouse that cooperates and coordinates peacefully with its neighbors. South Korea and Taiwan have followed in Japan's footsteps. The United States, representing the throne of faith and the initial seat of the New JerUSAlem, has initiated and supported this ongoing transformation. Democratic, Hindu India (understanding) and communist, atheistic China (power) likewise have played, and continue to play, pivotal roles throughout Southeast Asia and the Far East, for better and for worse.

Visualization: Wrap yourself in a cocoon of light. Unite in consciousness with those in the higher realms who are your teachers and partners in awakening mankind. Be aware that space brothers and sisters are an integral part of this interdimensional bulwark of light. Imagine yourself high in the atmosphere over Southeast Asia and the Far East, where you see all 12 countries. Unite with the minimum of 1,000 elect in each of these 12 nations, who together comprise 12,000 devoted light workers in this whole region. They are of every race, religion, philosophy, political system and profession. See the 12,000 elect working together as one vibrant, cooperative and coordinated whole that is filled to the brim with zeal and enthusiasm. All of them think pink, feel in the pink, and are filled with rosy-pink hope as they heal humanity.
