

## ***InVest: 23 – Invest in the Temple of Wisdom***

Starting on the 1<sup>st</sup> day of April, the 4<sup>th</sup> month of the year, begin to focus on your 4<sup>th</sup> power of wisdom-judgment-justice. Easter is April 4<sup>th</sup> this year, and both the Western and Eastern Orthodox branches of Christianity will celebrate it on the same day, whereas usually they don't. Easter is shaping up to be double-duty time of crucifixion, entombment and resurrection.

**Wisdom-judgment-justice manifests via the third-eye and pituitary gland, and as all of the other endocrine glands.** The pituitary is the master gland that corresponds to the third-eye doorway between dimensions, because the only way to be wise is to see above and below, in the past and the future, within and without. We judge rightly and see the justice in each situation by having the cosmic vision of the all-seeing or third eye in the region of our forehead. Only with one-pointed vision can we be wise as a serpent, gentle as a dove.

**April 2<sup>nd</sup> – Crucifixion: Imagine a horizontal pole of light** that travels through your temples and the temporal lobes of your cerebrum, which reveals your memories of this and past lives, exposing whatever is not wise or just or judged rightly, including the ways in which you have been judgmental and have seen your problems as being “out there.” Leading up to and including Good Friday, watch, wait, listen and learn as you are third-eyed focused. Weigh, evaluate and determine what is out of balance and needing refinement. Then, cross this out and de-crystallize it. Dissolve any lingering negative judgments, any unwise and unjust views of yourself and others. Whew! Aren't you glad to finally release this crude, once and for all!?

**April 3<sup>rd</sup> - Rest in the tomb:** After you judge and crucify remaining thorny issues, die and enter into the tomb where you rest on Saturday. Before, you were vertical on the cross; now you are flat on our back in a tomb of stone. This is a time of rest and deep reflection, a time to dismiss any leftover threads or reverberations of your crucifixion. In the tomb, totally let go and let God come into its closed doors and into your pituitary gland. This gland, this tomb, this double dome of light inside the domed skull is the seat of your temple of wisdom, wherein you no longer see with mortal eyes but begin to see with the eyes of your I Am Self. In this third eye/pituitary center, see the **green light of wisdom**.

**April 4<sup>th</sup> - Resurrect!** Spirit and your guardian angels lower your light or Christ body down a vertical pole of light through your crown and third eye chakras, and all the way down your spine. In risen I Am consciousness, watch as the rock over the tomb's sealed entrance is rolled back. Very tentatively at first, take your first steps out into the blinding light of your I Am Self and light form. In this new day, your view is cosmic, beyond anything of the mortal, third dimensional world. It is the light and love and wisdom of the fourth dimension.

**From April 1-4, keep your third eye single on and invest yourself totally in resurrection.** See it from the beginning to the end. Hold to it with double dedication through your crucifixion and your entombment. Double up and double down by way of the third eye wisdom-judgment faculty. Then, rise doubly high in your resurrection, which is double what you have expected. Be doubly the holy child of God that you, a double dome of divine love and wisdom. So be it.
